

Our After Market Programs are specifically designed to ensure that your equipment continues to run without interruptions and gives you control over planning the equipment downtime. The programs below will allow you to remain in regular contact with BellatRx as well as keep your equipment and employees up to date.

Preventative Maintenance Program

Benefits for you and the equipment

- Increases the life of the equipment, maintain efficiency of the line and lower the amount of down time.
- Qualified service technician on site can provide training at the same time and offer any possible upgrades available on the equipment.
- Possibility for different valued packages.

Training For Life Program

- Scheduled training held at Bellatrx facility on given equipment.
- Free of charge for existing customers. Only travel and accommodations need to be covered by the customer.
- Customer is able to train staff any time they need by a certified Bellatrx technician for as long as you own the equipment.
- Customer is able to see the latest and greatest machines being built and could see some potential improvements that they would like for upcoming projects.

Regional Service Visits Program

- On-site visit by BellatRx Inc. service manager to meet with different contacts at your location.
- Purpose of the visit is to do visual inspection of the equipment and discuss available upgrades to increase efficiency of the equipment.
- Additional training to operators and maintenance personnel.
