

RECOVERX - SA

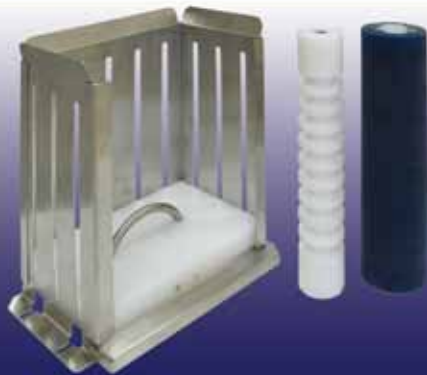

SEMI-AUTOMATIC DEBLISTERING MACHINE

The Recoverx - SA is a semi-automatic deblistering machine used to recover product from press-out aluminum backing blisterpacks.

This machine is designed to provide years of worry-free operation and setup repeatability - it is extremely easy to use.

The Recoverx - SA is portable and can be either bench mounted, or floor mounted using the optional stand. It requires basic electrical utility and it is ready to commence operation.

The Recoverx - SA is made from precision manufactured anodized aluminum and stainless steel, with a polyurethane product roller to meet GMP requirements.

Benefits of Product Recovery:

- Reduce production waste and disposal costs
- Avoid product contamination or damage
- Lower labour costs
- Minimize risk of personal injury from repetitive motion

RECOVERX - SA

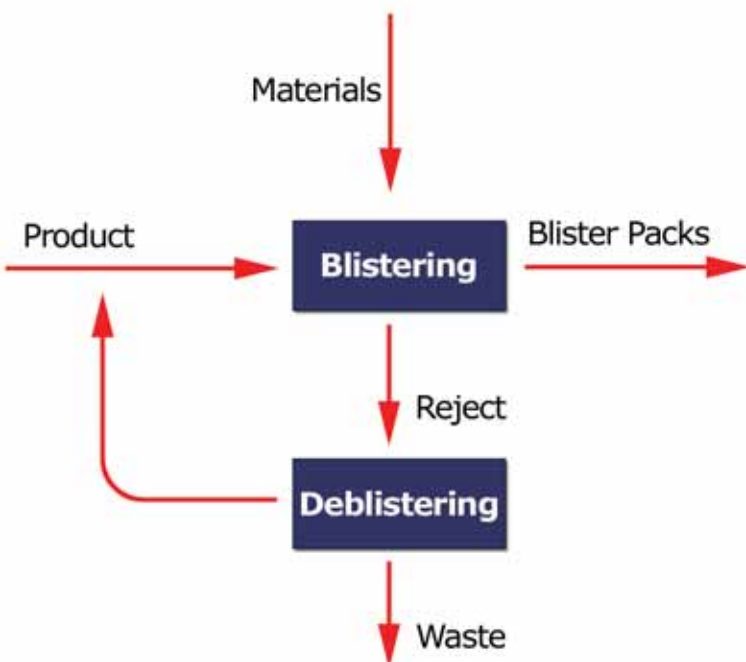

SEMI-AUTOMATIC DEBLISTERING MACHINE

Features:

Not only is the Recoverx SA simple to use, but it takes minutes to change over from one product to the next. Quick changeover allows for easy cleaning of all product contact parts. Spare product contact parts can be supplied to allow cleaning of dirty parts while the Recoverx SA continues to recover product.

Product recovery needs can change as your business grows. Therefore the Recoverx SA was designed to grow as well, with the ability to add larger capacity product recovery bins and waste bins on an optional floor stand. An automatic blisterpack feeding system can be supplied or added at a later date as requirements change.

Features:

- Completely mobile. No air required.
- Sealed drive.
- Interlocked guard to prevent injury.
- Holding bin deflector shield.
- Non-slip pads.
- Lock in place product bin.
- Cleaning instructions and operating manual included.

Technical Specifications:

- Working range: push-through and multi-product blisterpacks.
- Construction: Stainless steel, aluminum and FDA approved materials for product contact parts.
- Power requirements: 120 VAC - 1 - 60 Hz, 15 Amp.
- Dimensions: 13 3/4" x 17 3/4" x 11"
- Machine weight: 22 lbs
- Blisterpack size: Width - 10" Length - unlimited
